(4) Stinging nettle and saw palmetto support the prostate wellness.
(5) Saw palmetto supports the natural hair growth by male.
(6) From colostrum and egg yolk.

Did you know that...?

The prostate is a vital gland of the male endocrine and reproductive system. One of its main functions is to produce the fluid that carries spermatozoa.

Over the years it frequently undergoes changes (enlargement) which puts pressure on the urethra, leading to urinary problems.

What does Malepro do?

Zinc and selenium help protect cells against **oxidative stress** and contribute to the normal functioning of the **immune system**.

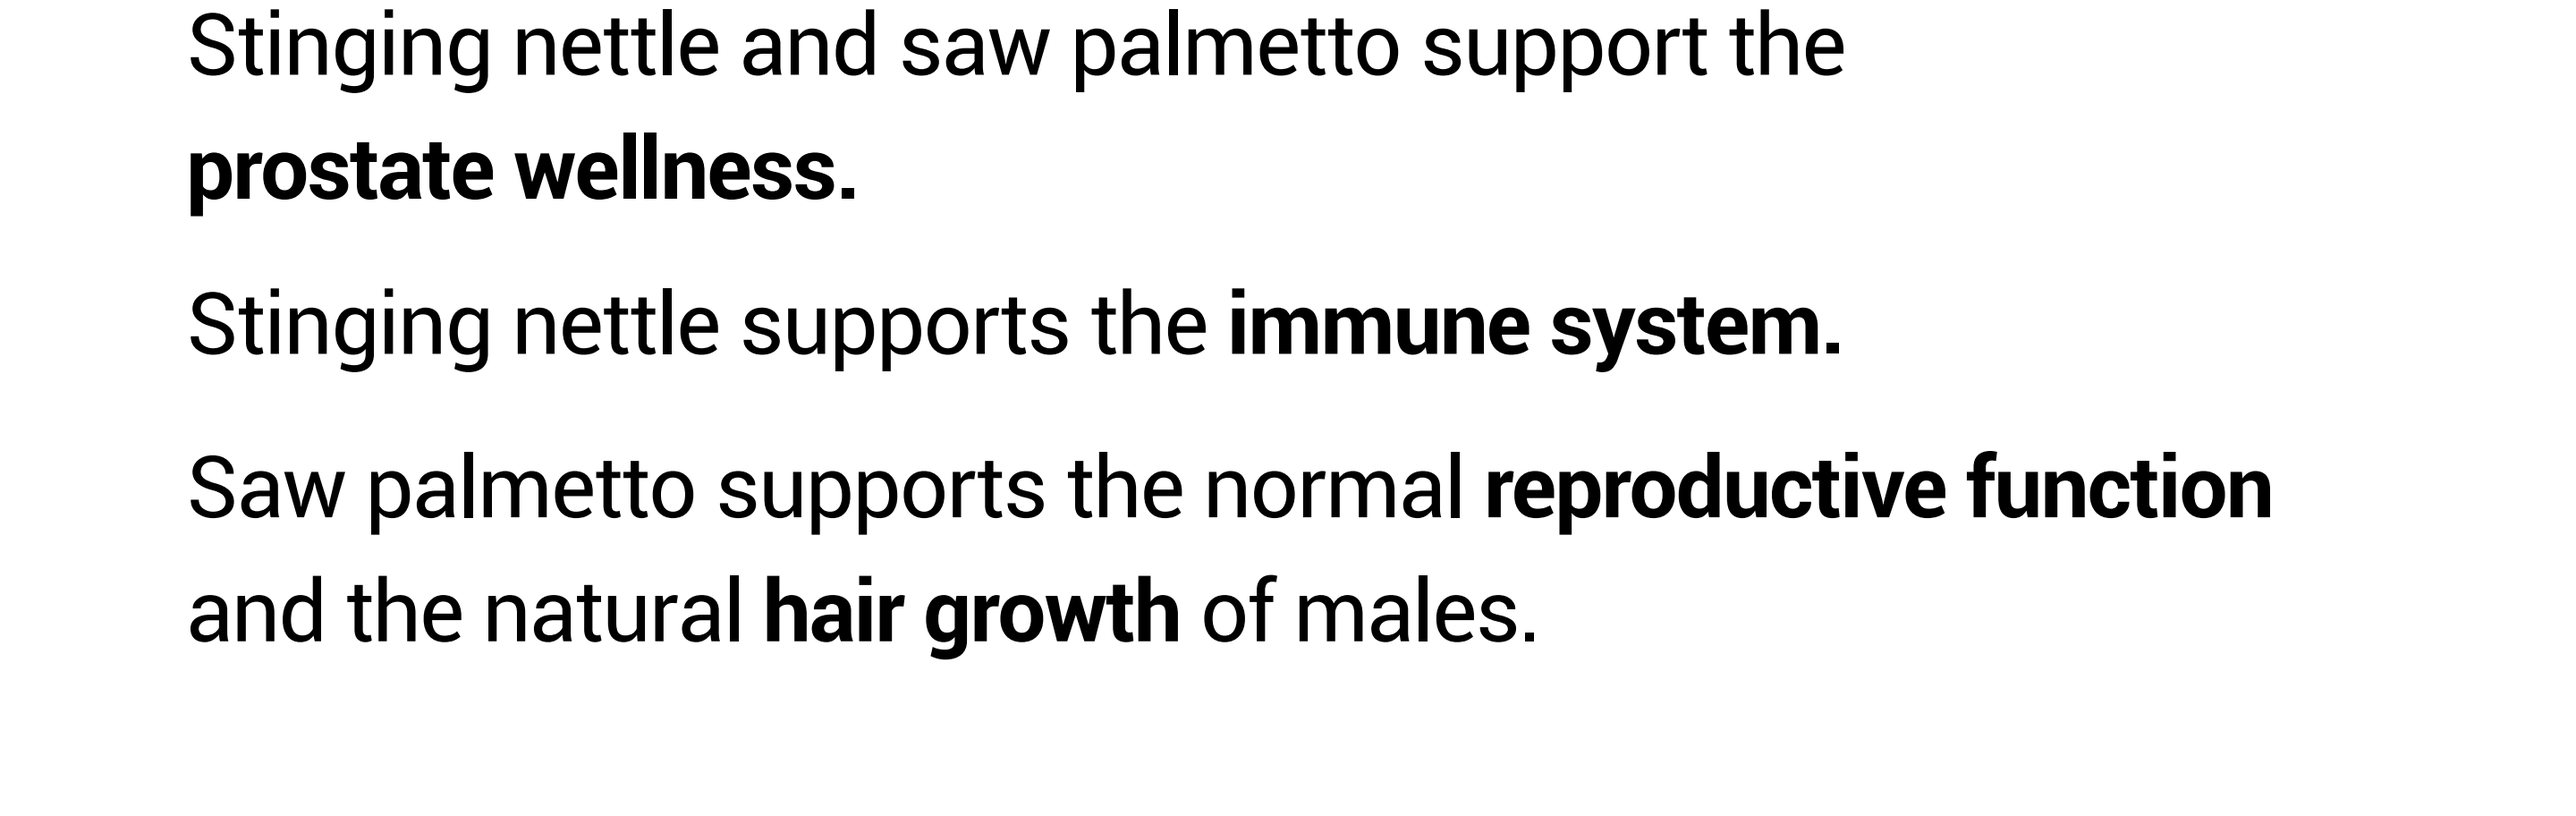

Zinc contributes to normal **fertility and reproduction** and to the maintenance of normal **testosterone** levels in the blood.

Selenium contributes to normal **spermatogenesis.**

Stinging nettle and saw palmetto support the **prostate wellness.**

Stinging nettle supports the **immune system.**

Saw palmetto supports the normal **reproductive function** and the natural **hair growth** of males.
