Contributes to the normal stomach and liver function

**Milk thistle fruit extract** [3]
Hepatoprotective

# SUPER DETOX™

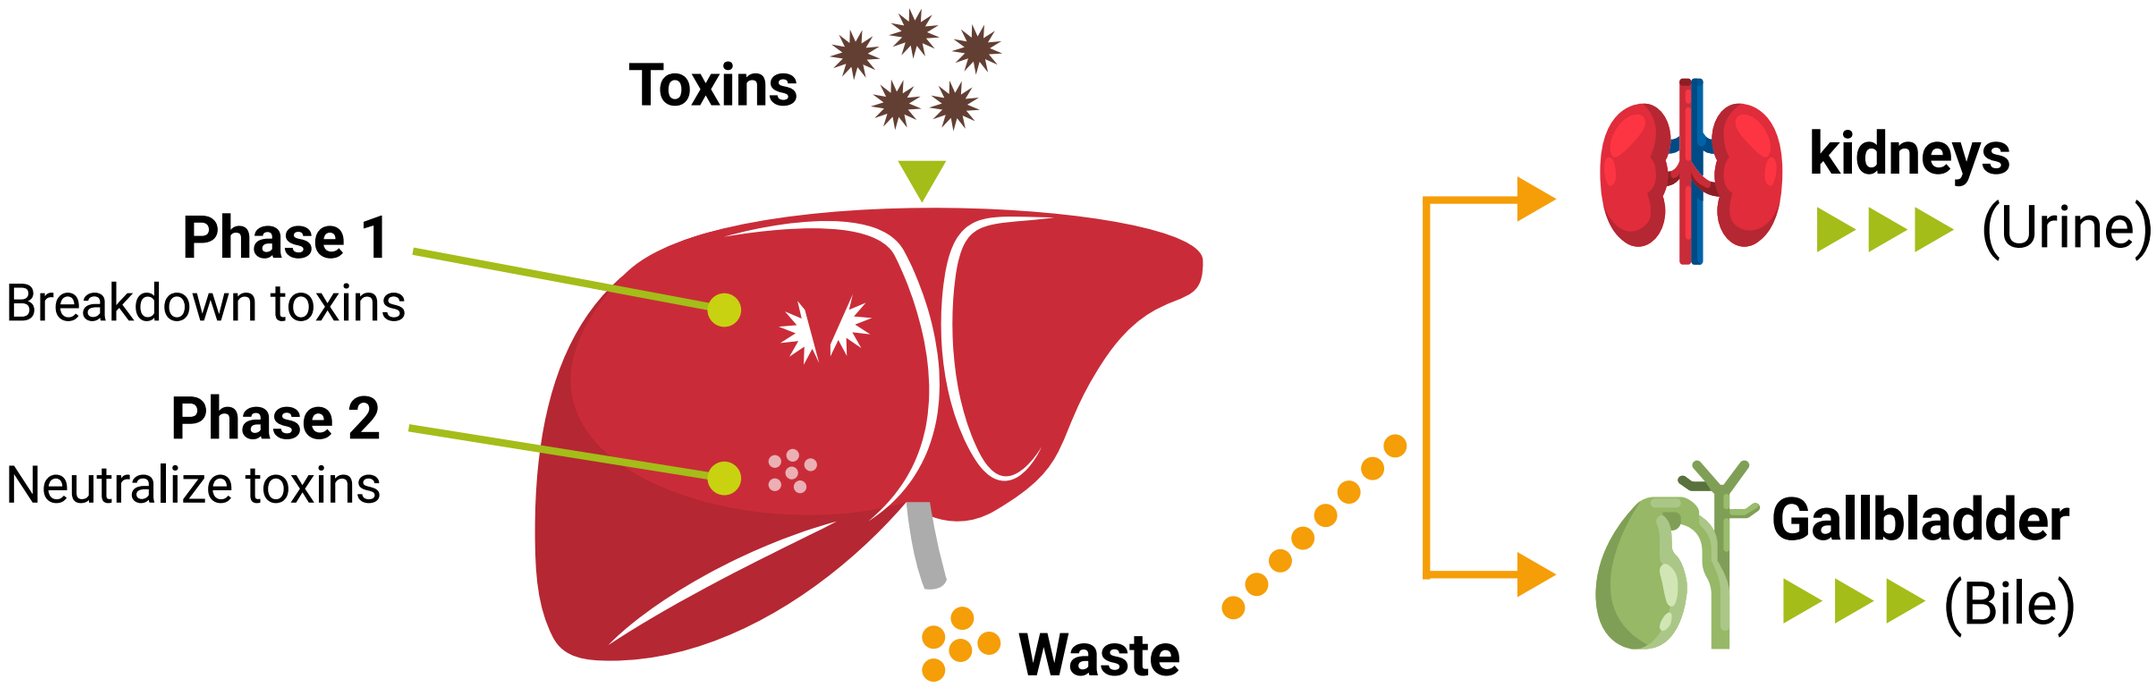

**DIGESTIVE WELLBEING**

(1) *Cynara scolymus L.*
(2) *Taraxacum officinale*
(3) *Silybum marianum*

- **Did you know that the liver is the biggest gland in the body?**
- **Do you want to neutralise harmful toxic substances?**

The liver is a vital organ because it aids the production of bile and cholesterol and the storage and release of glucose (as well as having many more functions).
It plays a vital role in removing substances from the body.

For a toxin to be removed properly, it first has to be transformed into a more soluble (less harmful) substance. Detoxification is a process whereby the body neutralises some of the harmful toxic substances.

## What does Super Detox provide?

Contains plant extracts (milk thistle fruit, dandelion leaf and artichoke leaf) which help maintain normal liver function.

60
CAPSULES

36,72 g
NET WEIGHT

## DIRECTIONS:

Take two (2) capsules at the same time daily with 240 ml of liquid.
